

LSAMP **INSPIRE** PROGRAM

Research Experience for Undergraduates (REU) Seminar and Workshop for Interested Students

Hosted by Ankeny Campus Des Moines Area Community College

Saturday October 20, 2018

8:30 a.m. to Noon

GOALS

- To provide interested students information about the REU application procedures.
- To provide students tools to submit a quality and competitive REU application.
- To provide scholarship information

BENEFITS

- Have your materials critiqued by experts
- Become part of a network of interested REU students
- Learn about research benefits

WHO SHOULD ATTEND?

- Returning REU students
- All interested students seeking a research experience
- Must be a US Citizen or Permanent Resident
- Generally GPA \geq 2.75

TYPICAL RESEARCH ACTIVITIES & PROJECTS

- Create and conduct a scientific research project under the direction of a Researcher
- Measure, analyze, and draw conclusions, based on research, regarding the research conducted
- Compare and contrast research models
- Upon completion of research, make recommendations for the direction of future research
- Create a scientific poster suitable for presentations

TARGET: To increase opportunities for LSAMP-Eligible students through an REU experience within STEM disciplines.

Additional Information about scholarships, opportunities, programs, funding, and deadlines will be provided at the Workshop!
